

**Update on TransMonEE  
Revisioning**  
**Follow-up to the 2018 and 2019  
discussions**

# Positioning TransMonEE as a leader of Data for Children for Europe and Central Asia

## Modernization and Simplification of TransMonEE

- **Regional database on children** - automatic updates of information available in international databases + **minimize data collection** from the NSOs.
- Develop an improved **TransMonEE Dashboard**.

## Improving the Quality of Data and setting standards

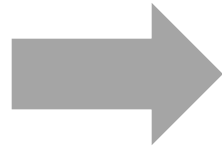

- **Improved templates** and data quality/validation.
- Work with the **Conference of European Statisticians** to improve the standards and engage other countries.
- Support a group of countries with more **focused data improvement planning**.

## Strengthen the TransMonEE Network

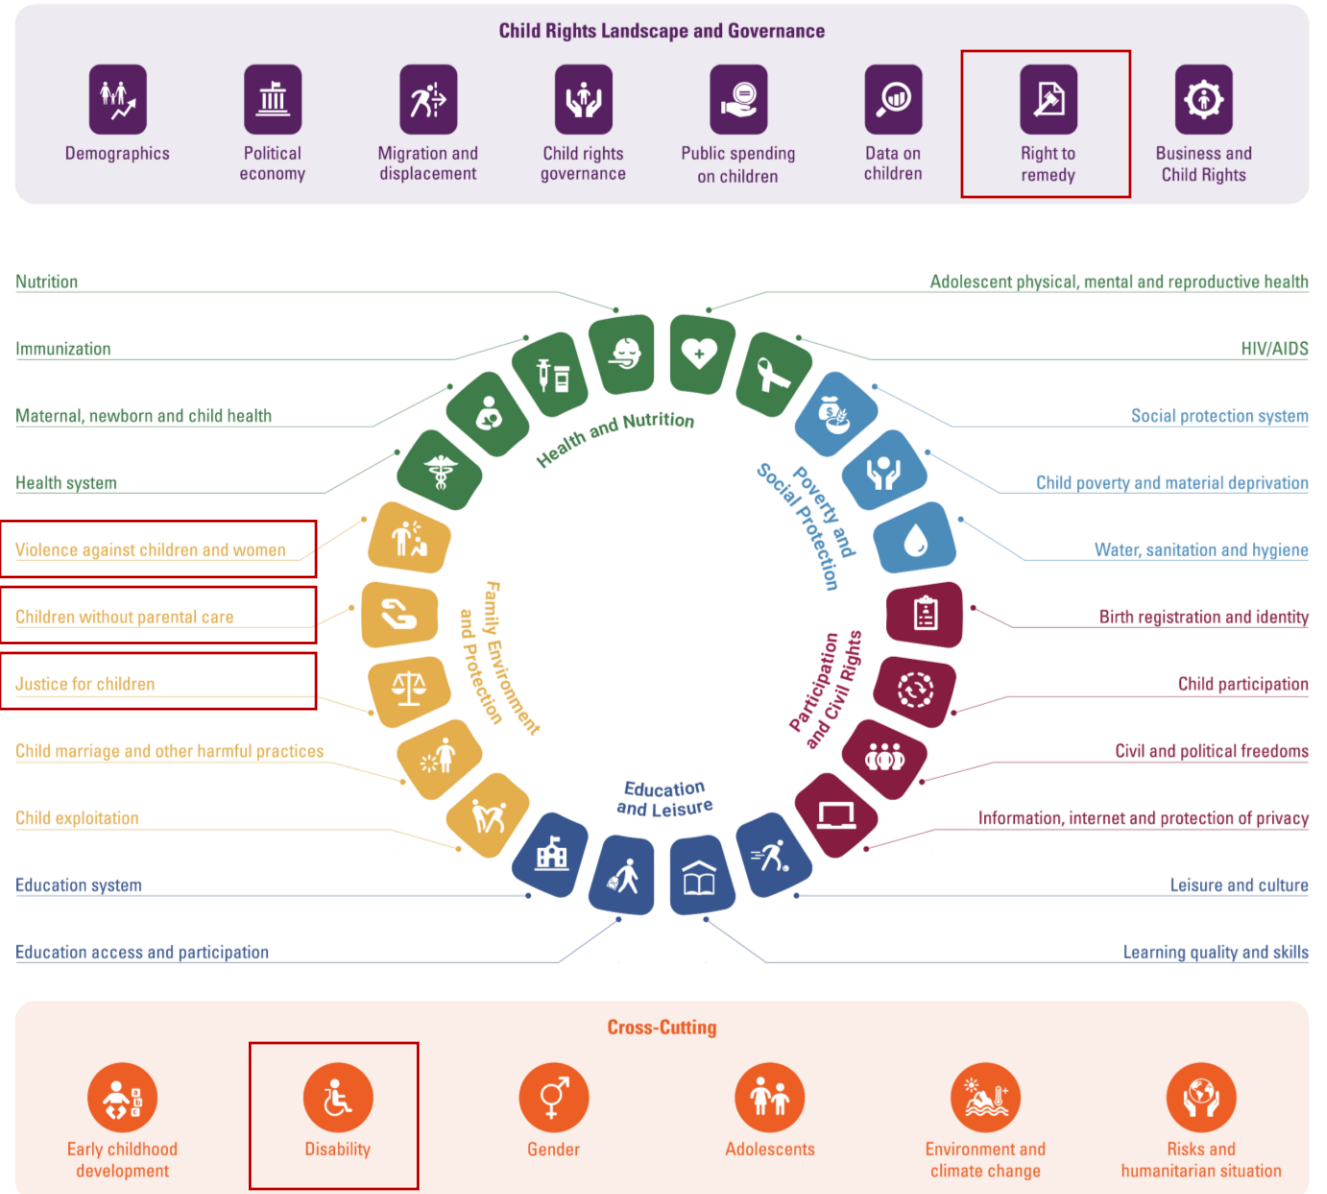

- **Increased engagement with NSOs** (and NSS) during the year, leveraging collaboration between countries and exchange on best practices.
- Theme-based **annual analytical reports** and action-oriented **network meetings**

Three **Strategic Pillars**

# Previous framework (1998- 2019)

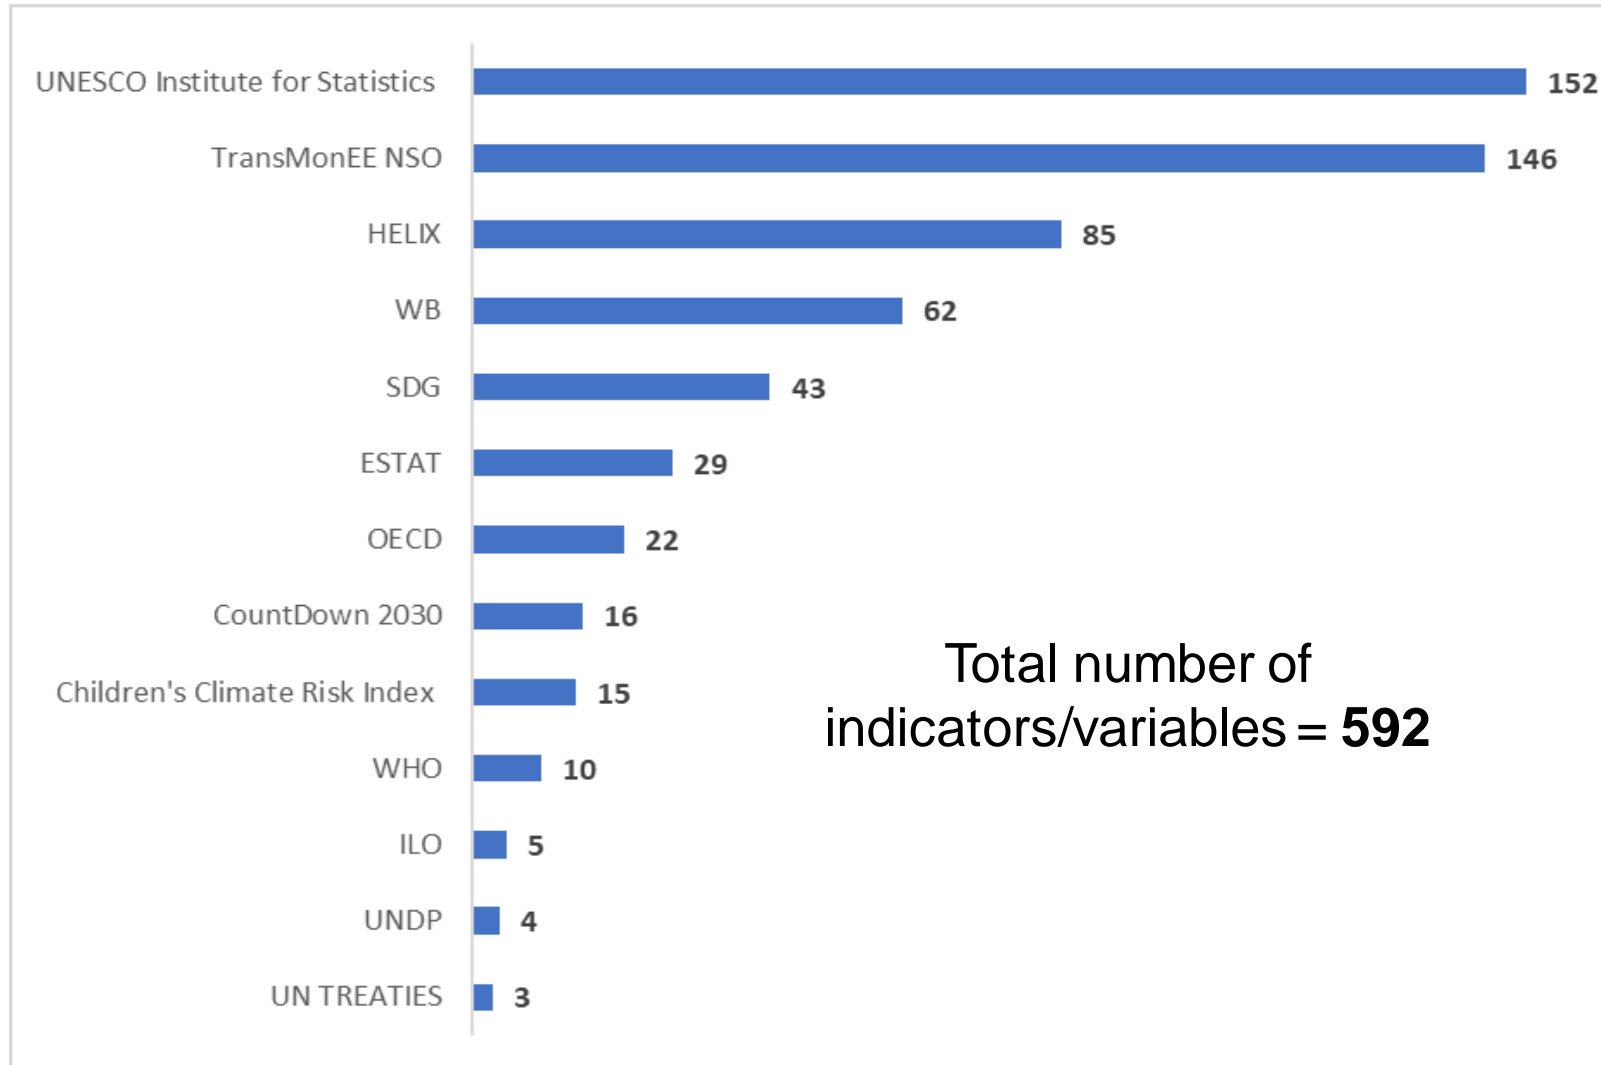

# New Framework

# TransMonEE database: indicators by source

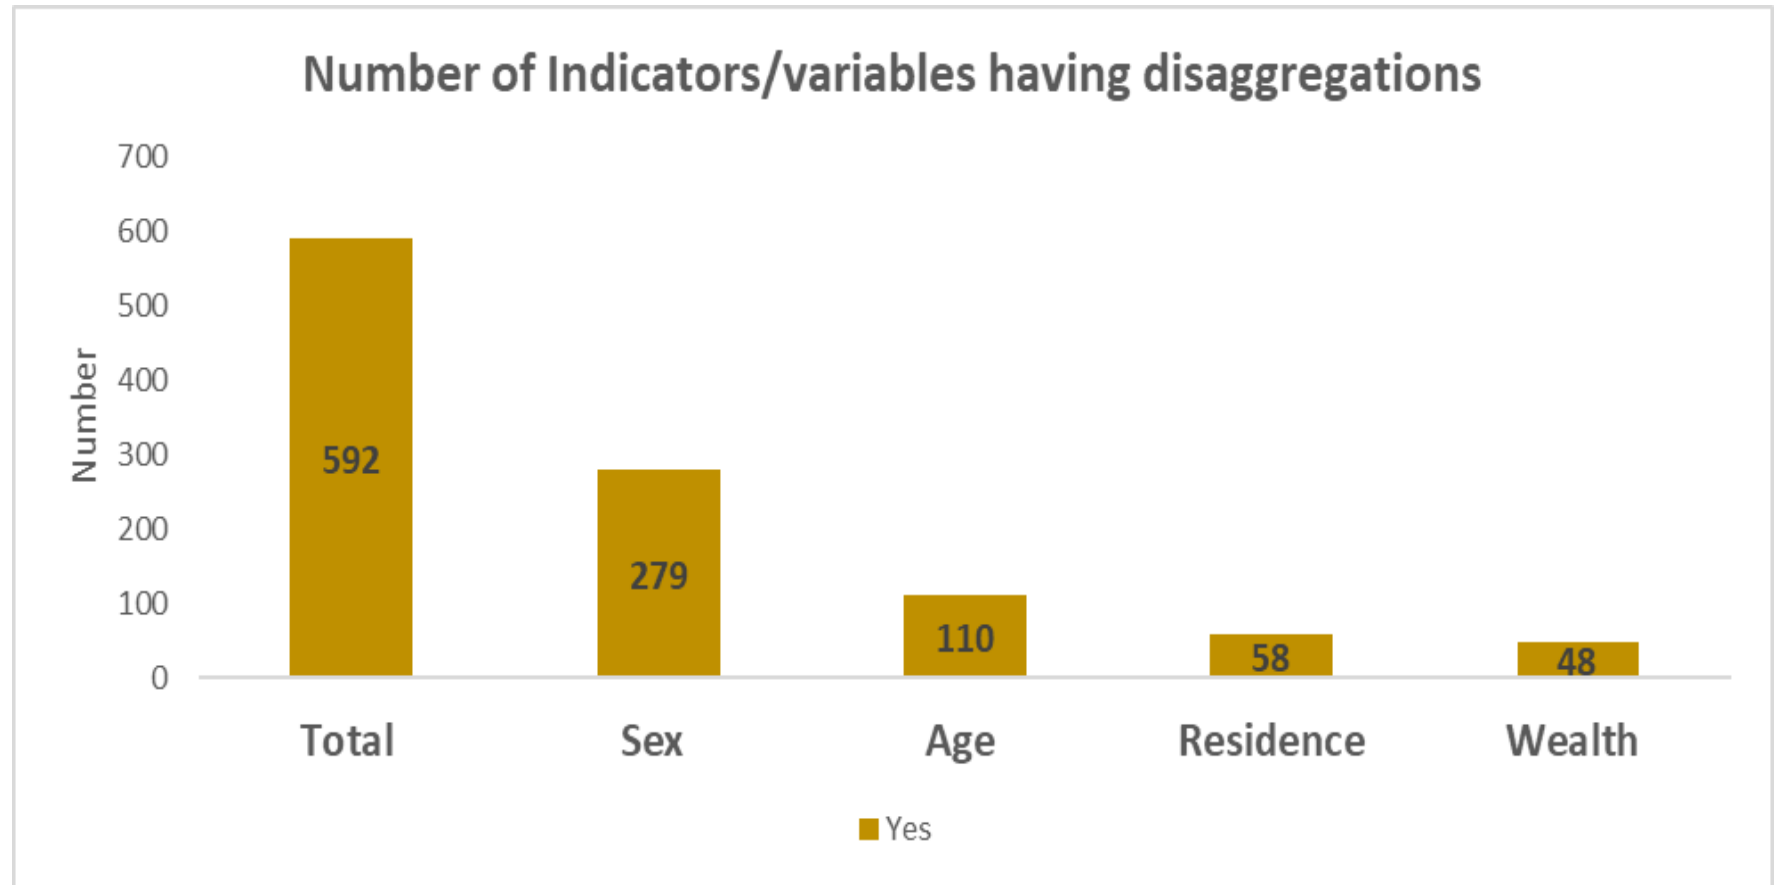

Harvest available data from the **international databases**.

Keep **data collection from the partners** to the most strategic and minimal indicators.

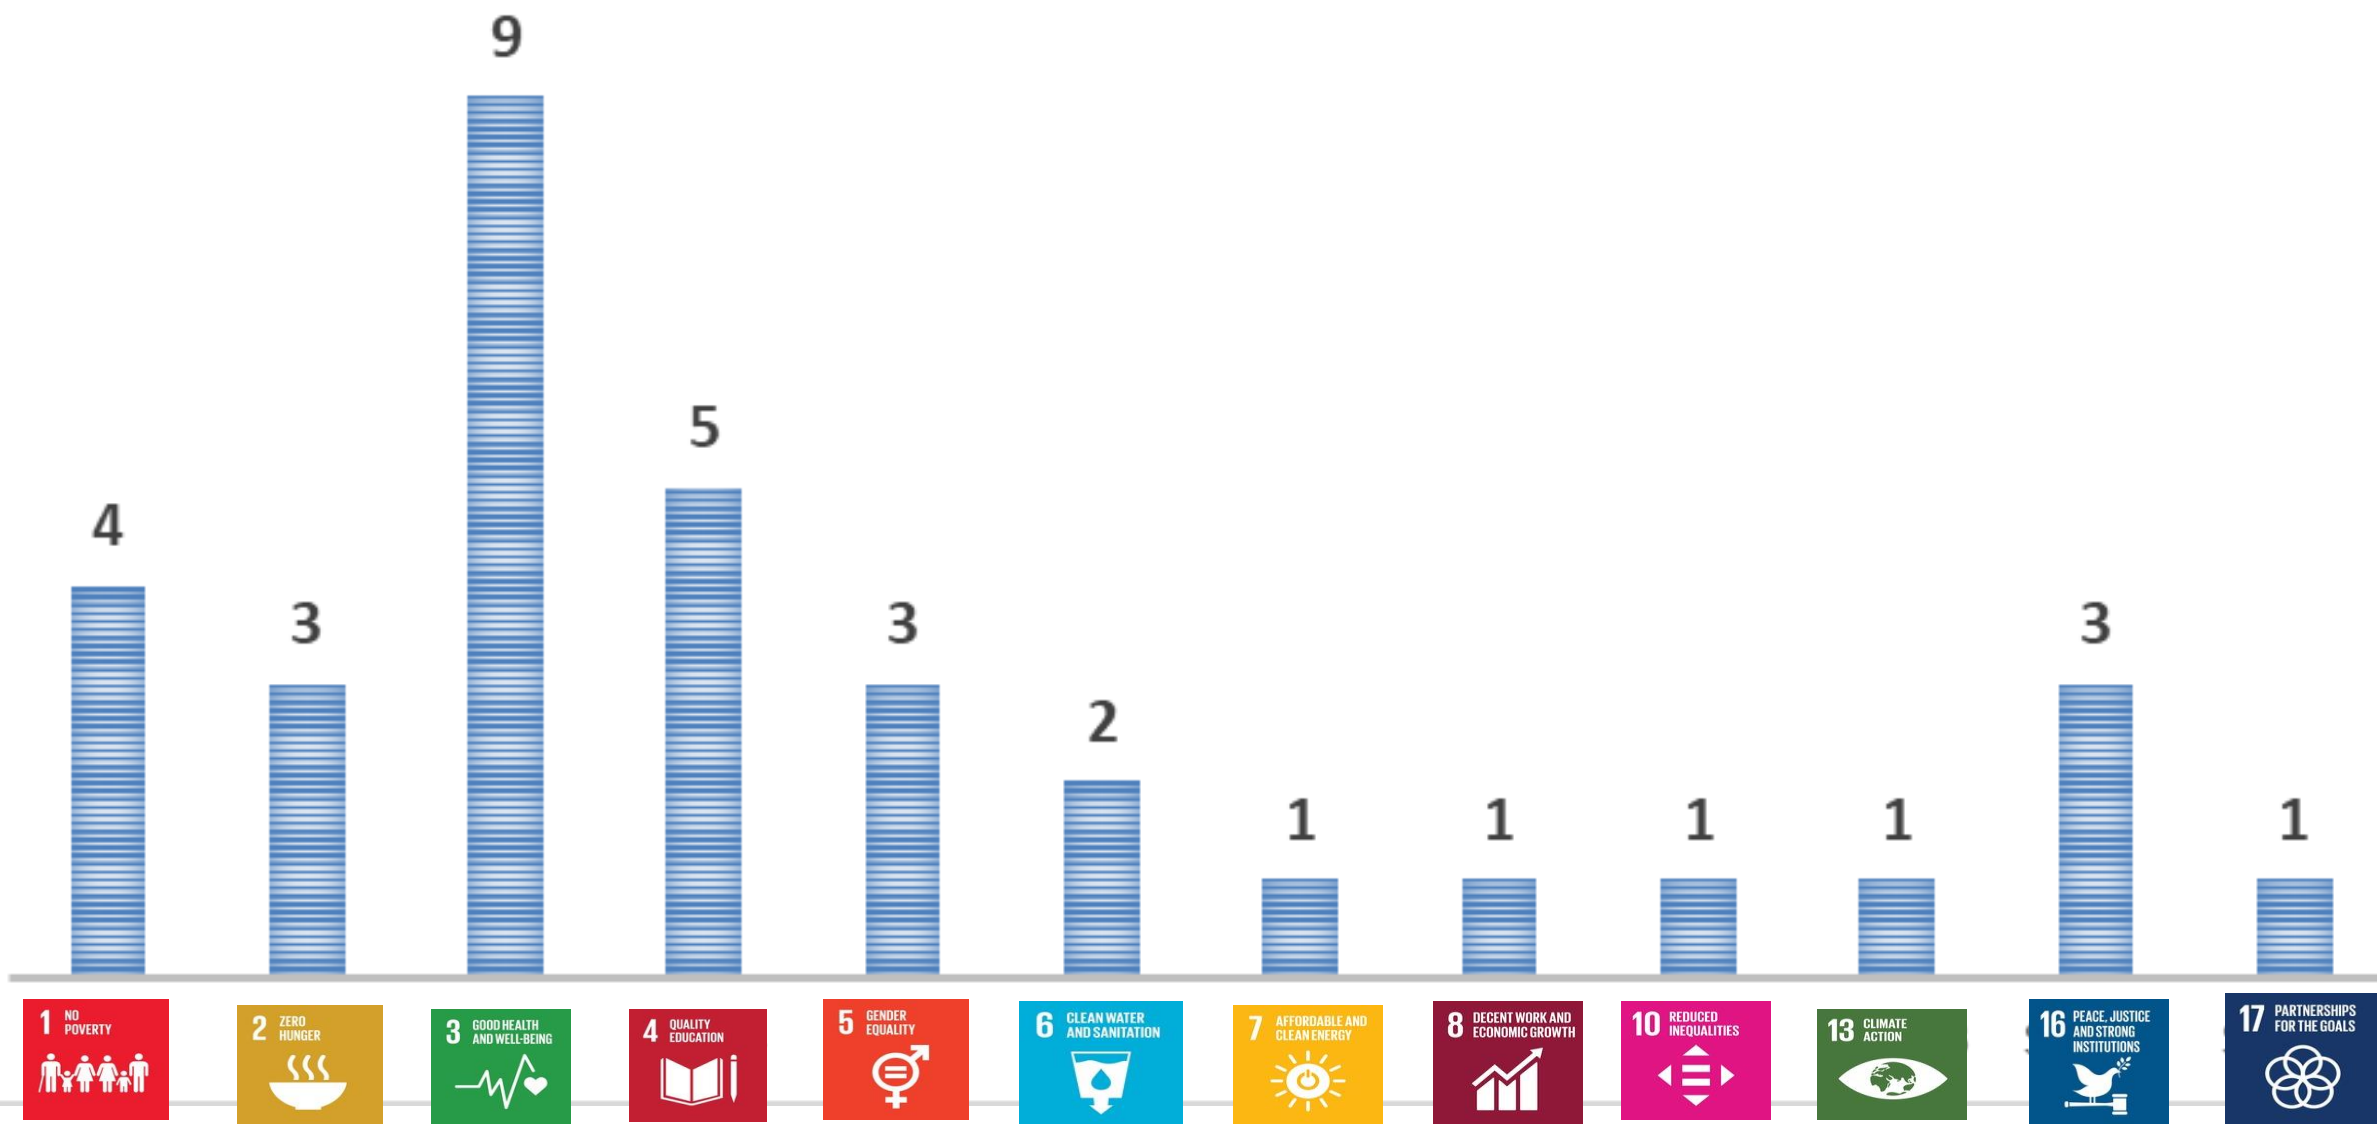

# TransMonEE database: Indicators by disaggregation

Total number of indicators/variables  
= **592**

# TransMonEE database: 34 SDG indicators
